Northern Gallatin
1/2/2019
Code
SS-N-R2-D2
Elevation
9300
Aspect Range
N-NW-SW
Latitude
45.43390
Longitude
-110.99500
Notes

From email on 1/3/19: "On [January] 2nd, there were 4 older natural avalanches on N slopes in the A Lowe basin as well as 1 recent avalanche below the NW [couloir](#). I've attached a pic of an older [slide](#) on the SW [aspect](#) of elephant. I also got some collapsing as I skinned up the south side of the bmoor/elephant saddle on the 3rd."
