

"Natural avalanche. North facing slope. Around half mile wide. Photos don't show half of the slide. Broke on the ground facets. Crown was between 3 and 15 feet deep. We didn't get a photo of the deepest crown. Ripped trees out around 5" diameter." Photo: Reed Malmstrom

Advisory Region Northern Madison Longitude -111.38W Latitude 45.17N **Avalanche Details:** <u>Natural Avalanche in Muddy Creek, Buck Ridge</u> Northern Madison, 2020-02-08
