

Large natural on E side Woody Ridge, Cooke

Woody Ridge

Cooke City

2/14/2020

Code

SS-N-R1-D2-O

Elevation

10200

Aspect

E

Latitude

44.97390

Longitude

-109.92400

Notes

From an observation, " Climax slid quite large several days ago. We could get a good look at the crown because of the wind, but I'm guessing it was a [wind slab](#) that stepped down."

"Climax" is the what the locals call the large east face on Woody Ridge above Hayden Creek.
