

Surface snow breaking at Portal today

Date

Sun, 03/26/2023 - 18:05

Activity

Snowmobiling

Saw a couple small natural slides breaking in the new snow. The one on the small slope beside the road actually appeared to have broken when a snow bike crossed the top just off the side of the road. The other was natural and occurred in the afternoon sometime

Region

Northern Gallatin

Location (from list)

Portal Creek

Observer Name

Jed Weingarten
