

Shooting Cracks in Hyalite

Hyalite - main fork

Northern Gallatin

3/3/2024

Code

Latitude

45.44720

Longitude

-110.96200

Notes

From obs: "Toured to the zipper for some 25° meadows and while the skiing was excellent, the [stability](#) was not. We triggered numerous thundering whumphs and got shooting cracks, the largest of which propagated at least 100' wide! See snow profile attached with test results."
