

Graupel in Hyalite

Date

Thu, 03/14/2024 - 18:00

Activity

Ice Climbing

Localized observation for the Grotto Falls trailhead and G1 climbing area. An inch of graupel on the surface that probably fell in the late afternoon? I don't know how widespread it is, but very prominent in this area.

Region

Northern Gallatin

Location (from list)

Hyalite - main fork
